

OLAMETER ACQUIRES TRILLIANT'S MANUAL METER READING & FIELD SERVICES DIVISION

Aurora, Ontario, January 26, 2009 – Olameter Inc. announced today that they have purchased certain manual meter reading and associated services operations and contracts from Trilliant, Inc. The terms of the deal between these two private companies were not disclosed.

As a result of this agreement, Trilliant has assigned its Ontario field services contracts to Olameter, and Olameter has assumed responsibility for all outstanding related service proposals submitted by Trilliant Energy Services Inc. The contracts and proposals being assigned relate to manual meter reading, field collections, meter installations, and associated handheld system solutions. The transaction also involves the transfer of some eighty (80) field staff, as well as the management and administrative personnel based in Guelph, Ontario, to Olameter.

Trilliant will continue to provide its full suite of Smart Metering software and hardware products and solutions for ASP services to support advanced metering, meter shop, and sub-metering (suite metering) services, as well as the full scope of its Smart Grid offerings to clients in Canada and worldwide.

Mr. Jan Peeters, Olameter's President and CEO stated, "This acquisition will further efforts to bring cost-effective, efficient, and technologically-advanced solutions to utilities across North America. Olameter and Trilliant are looking forward to other areas of collaboration to help utilities navigate smoothly through smart meter implementation, data management, and smart meter network management issues."

About Olameter

As a leading independent meter service company, Olameter offers a full range of telemetry and back-office systems for electric, gas, and water utilities and retailers. Olameter provides services to over 100 clients across North America, with a solution portfolio that includes AMI system monitoring & integration (via their *inView* application), meter data management, ASP data collection, workforce management (via their *onService* application), consumer web-presentment, integration consulting, ASP billing/CIS applications, call centre and back-office operations support, meter reading and field services (including meter installations), and meter service and sales. Olameter solutions are designed to maximize business returns through a proven implementation model that minimizes impact on the client, and assists in achieving deliverables such as improved cash flow, reduced costs, and enhanced customer loyalty.
